Artifact Copyright and Consent Form

Version 1.0 – 2020 September 30

Preamble

In order for the IACR to distribute Artifacts, we require permission to do so. You are asked to grant the IACR permission to do so under an open-source license of your choice. As some Artifacts may combine portions created by you and third-party materials obtained elsewhere, you must ensure that you have obtained a license to redistribute all third-party materials included in the Artifact that were not created by you, for example by including only open-source components or by otherwise obtaining and demonstrating the required permissions.

Please complete parts I and III of the form, unless all authors are government employees, in which case parts II and III must be completed. Please also complete Appendix A if multiple licenses apply. Please read the form carefully and keep a copy for your files.

Joint Authorship

For jointly authored works, all the joint authors should sign, or one of the authors should sign as an authorized agent for the others.

In the case of multiple authorship where one or more authors are government employees but at least one author is not, the non-government author should sign the form.

PART II – To be completed by Government Employees

To be completed only by government employees.

Authors who are government employees are not required to sign Part I of this form. However, any coauthors outside the government are required to sign Part I of this form, and authors whose work was performed under a government contract or grant, but who are not government employees, are also required to sign Part I of this form (see Joint authorship above).

The undersigned hereby declares that he/she is a government employee and performed this work as part of his/her official duties and that the work is therefore not subject to national or U.S. copyright protection.

PART III – To be completed in all cases

The undersigned hereby represents and warrants that the Artifact contains no malicious code, virus, trojan horse, or other software routines or hardware components designed to permit unauthorized access or to disable, erase or otherwise harm any computer systems or software, and hereby agrees to indemnify and hold harmless IACR from all liability, losses, damages, penalties, claims, actions, costs and expenses (including reasonable legal expense) arising from the use of such files.

☒ I agree to the representation, warranties, and covenants.

In the event that any materials used in the Artifact contain the work of third-party individuals or organizations (including copyrighted music or movie excerpts or anything not owned or created by me), I understand that it is my responsibility to secure any necessary permissions and/or licenses for distribution, and cite or attach them below. Third-party copyright must be clearly stated in the Artifact as applicable.

☐ I have not used third-party material in my Artifact.
☒ I have used third-party materials and have necessary permissions for distribution of my Artifact.
